

SOCIAL VALUE POLICY 2022

Introduction

The Council recognises the important role it can play in enabling Social Value through its procurement activity. In 2021/2022 we spent approximately £60million via our procurement activity. Through our approach to social value, we will integrate economic, environmental, and social sustainability into our procurement processes.

Background

The Public Services (Social Value) Act 2012 came into force in January 2013 cementing the responsibilities of a contracting authority when procuring services contracts subject to public procurement regulations to take into account the “economic, social and environmental wellbeing of the relevant area” in its procurement activity. Ashfield District Council intends to further commit itself to the Act by going beyond the Act’s requirements and implementing this policy into all aspects of its commercial and procurement activity where it is practicable to do so. In doing this, both the detail and spirit of the Act can be delivered in all council commercial and procurement activity.

What is Social Value?

Social Value has been defined as the additional benefit to the community from a commissioning/ procurement process over and above the direct purchasing of goods, services and outcomes. The Public Services (Social Value) Act 2012 states: The authority must consider:

- (a) how what is proposed to be procured might improve the economic, social and environmental well-being of the relevant area
- (b) how, in conducting the process of procurement, it might act with a view to securing that improvement.

In order to really deliver social value and have it fully embedded and considered; commissioners must move away from just considering the core service being delivered by a supplier to one that recognises the overall value of outcomes delivered.

Why is Ashfield District Council doing this?

Requiring suppliers to deliver social benefits while they deliver the main element of their contract means that there is a magnified benefit for the Council. Incorporating social value into our commissioning and procurement process is not difficult and can make a tangible difference to people in the community, to service delivery and to the council's spending plans as a whole. Adoption of this policy can provide the following benefits:

- Encouraging a diverse base of suppliers Promoting supplier diversity; including the participation of small and medium sized enterprises (SME's) and 3rd sector organisations, and local suppliers in general;
- Promoting fair employment practices Ensuring workforce equality and diversity within supply chains;
- Meeting targeted recruitment and training needs Offering a range of apprenticeship, training and skills development opportunities as well as employment opportunities;
- Community benefits Maximising opportunities for small and medium sized enterprises (SME's) and 3rd sector organisations to participate in the council's supply chains and encouraging suppliers to make a social contribution to the local area;
- Ethical sourcing practices Ensuring compliance with UK, EU and international standards, promoting fair trade and fair pricing policies, tackling corruption, child labour, animal welfare, blacklisting of union members and similar social issues; and
- Promoting greater environmental sustainability Minimising waste and pollution, supporting carbon reduction initiatives, furthering energy efficiency and other sustainability programmes.

For every pound that Ashfield spends, we will aim to deliver at least the same value of return in social value

Policy and legislative context

This Social Value Policy fully supports the council's corporate priorities in:

- The Council exists to serve the communities and residents of Ashfeld.
- Providing good quality, value for money services.
- Act strategically and plan for the future, working with others to bring about sustainable improvements in people's lives.

Delivery

In practice this Policy will be applied as follows:

- (i) As a minimum, all procurements over £25,000 will be required to include social value metrics as a part of the scoring and evaluation process. However wherever possible to do so, procurements below this value should also seek social value benefits from contracts.
- (ii) The standard weighting for social value will be a minimum 10% of the overall evaluation score and where it is feasible, this may be higher.
- (iii) The National Themes, Outcomes and Measures (TOMs) measuring tool as agreed by the Local Government Association will be used to capture SV offers from bidders to ensure offers can be evaluated in an open, fair and transparent way
- (iv) Once a procurement exercise is concluded, the responsibility for ensuring the committed social value benefits are actually delivered will fall to those officers responsible for contract management of that individual contract.
- (v) Ashfield in partnership with Social Value Portal will require bidders for contracts to supply social value targets for delivery. From £25k to £100k a lite version of the TOMs known as the "Ashfield Toms" will be used for bidders to refer to in their tender responses. Over £100k will require bidders to refer to and use the full set of National TOMs published by Social Value Portal.

How we will achieve these

- Ensure there is clear vision and direction for implementing our social value strategy
- Paying suppliers promptly
- Engage with Elected Members to ensure a clear and consistent vision is supported at all levels
- Ensure that the principles of social value is taken into consideration at all levels of decision making
- Ensure that social value is included in corporate procurement activities
- Promote social value activity taking place across the Council and celebrate success through promoting achievements and outcomes
- Establish mechanisms to coordinate and monitor information on Council contracts and to build this into our performance system for reporting.
- Promote social value with suppliers and ensure consultation within the market place at pre-market stage
- Provide more opportunities with SME's, social enterprises and voluntary and community organisations to network with larger companies to better develop local supply chains
- Promote good sustainable behaviours
- Working with suppliers to ensure the maximum delivery of Social Value
- Delivering at a community level and support the Council's Health and Happiness aspirations
- Support the local economy by working with new and established businesses
- Supporting local businesses

Measuring the impact of Social Value

The impact of social value activities on the local community and on people's wellbeing will be measured to ascertain the extent to which this policy is supporting the delivery of improved outcomes.

Social value measurement and evaluation is an evolving field we will continue to work with Social Value Portal in this area. We will continue to work with partners locally and regionally to further build our understanding of measurement and evaluation of Social Value, and to share expertise and best practice.

When measuring Social Value, the council will consider both soft and hard outcomes. Soft outcomes are things that cannot be directly measured e.g. well-being. Hard Outcomes can be clearly defined, are tangible and more easily measured in figures.

Monitoring and reporting internally will be managed through the current performance management framework and reported to the Corporate Leadership Team periodically and then included to members annually.

We will use a balanced scorecard to measure and monitor the social value rate of return as well as through benefits realisation tracking for project delivery.

Review

Ashfield District Council will periodically review its Social Value Policy. In doing so, it will take account of any changes in legislation pertaining to the Public Services (Social Value Act) 2012, the Local Government Act, Procurement Regulations and any changes to the council's priorities when it is reviewed.
