| 1 | <p>I have recently been informed that my local polling station Aspley Court is under consideration of being closed as a polling station. I am writing to protest as this will cause significant issues for me. I am a carer for 3 of my children who all have disabilities n I also suffer from fibromyalgia n arthritis myself n am in constant pain. My local polling station is perfect as my children n I don't have to walk too far but I am concerned if i cannot get to a polling station further afield then I may not be able to vote at all. Please consider people like me when making decisions to close polling stations as they will do affect the local community n I am sure will take away the ability for some to be able to vote. Postal voting is an option but it should not be forced to be peoples only choice. Also our nearest post box is further away than our polling station by quite a significant amount.</p> |
| 2 | <p>I strongly oppose any decision to remove Aspley court as a Polling station.</p> <p>I invite ADC to ensure ASPLEY COURT remains as a Polling station.</p> |
